HANG UP THE TELEPHONE LARGE END DOWNWARD

When the conversation has been finished, and give one short ring as a signal to disconnect the wires which you have just used. This is highly important. Until such disconnection is made you cannot call again nor can another party call you.

HANG UP THE TELEPHONE LARGE END DOWNWARD

When the conversation has been finished, and give one short ring as a signal to disconnect the wires which you have just used. This is highly important. Until such disconnection is made you cannot call again nor can another party call you.

HANG UP THE TELEPHONE LARGE END DOWNWARD

When the conversation has been finished, and give one short ring as a signal to disconnect the wires which you have just used. This is highly important. Until such disconnection is made you cannot call again nor can another party call you.

are desirable investments for trust funds.

We make a specialty of the bonds of such companies as have been first subjected on our behalf to a thorough legal, physical, and financial examination by experts of established reputation, and we are prepared to furnish full data regarding the properties of several prominent companies whose bonds we have purchased and offer for sale at prices to yield an attractive income upon the investment.

Many millions of telephone bonds are owned by financial institutions, trustees of estates, and individuals throughout the United States and Dominion of Canada.

We have prepared a brief history of the "Growth of the Telephone in the United States, 1880-1899," containing statistics relative to the vast sums of money invested in this industry as a basis of security for bond issues. and shall be pleased to mail copies to any address upon request.
